TOWN COUNCIL

The meeting of the Council was held on Tuesday night this week, Monday being a Bank Holiday to enable the local bankers to get ready for the spring opening, and to give the clerks an opportunity of studying the new spring fashion at leisure.

Councillor Golden was a notable absentee and the adjournment motion was delayed considerably on account of his absence.

After the minutes of the previous meeting had been confirmed the following reports and communications were read:

Letter from the Dept. of Indian Affairs, re the Town mine, stating that the matter had been referred to the local agent.

The Waterworks Committee reported that after full consideration of the question of water supply to citizens of the water line, they would advise that those directly interested enter into a systematic and business-like agreement with the water-carrier.

The same committee reported no progress with the Coal Heating question.

They also recommended that the Elevators be allowed access to the main sewer at the expense of the companies; the work to be done under the supervision of the town engineer.

Tenders for leasing of the Industrial Building were received and that of F. J. Malloy was accepted.

The Court of Revision was proposed to be held on April 22nd at 7.30 p.m.

Councillor Connolly was appointed Deputy Mayor for the ensuing three months.

Following a recommendation from the town engineer the Coal Mine was ordered to be closed during the summer months.

The Finance Committee reported that as a result of the special arrangements which have been made to meet the debenture payments due on April 1st, the Sec-treas. had been successful in securing the sum of \$60,000.00 from ratepayers in town and Calgary with substantial promises of more payment this week. The debenture interest has now been met and in addition the School Board has been advanced the sum of \$10,000.00. The debenture repayment amounting to \$80,000.00 has not been met but there is a possibility of providing for same by the surrender of such debentures for Sinking Fund debentures which are on hand but are not yet issued.

W. A. Smith, the interlocutor, gave general satisfaction to the audience and to the members of the troupe, by the smoothness and facility with which he directed the work of the circle.

Oscar Daehler, the musical director, is to be congratulated upon the success of his efforts which were undoubtedly greatly appreciated by the audience.

M. V. Hampton, the accompanist,

is deserving of great praise for the excellent work he put into the performance, and to his whole-hearted cooperation much of the success was due.

The second part opened with a concert solo by Mr. Pinno which was much appreciated and drew an encore.

W. J. Tegordine followed with an excellent rendering of the patriotic song "Empress of the C. & G."

F. J. Maloy gave a musical monologue entitled "Bugs" a pleasing innovation, which was given in a smart and snappy style.

E. G. Allen also contributed two songs.

The final number was a farcical sketch of "Rustic School Days" which provided one continuous source of laughter throughout.

The cast included a teacher and seven pupils.

A. H. Swain, as Professor Mulligan was in his happiest role and he was ably supported by his

Minstrels Make Good

Critics Unanimously Praise Performance
Veterans' Fund Benefits.

The performance of the Amateur Minstrels given on Wednesday night was an unqualified success from start to finish, with not one dull moment in the whole two-and-a-half hours.

A capacity house greeted the rise of the curtain and many, who had not secured tickets early in the day were unable to gain admission.

The opening chorus gave the keynote to the whole performance and was a revelation to the audience of the treats in store for them, for the strong work of the circle was a big feature of the evening, and shewed, the result of careful training given by the musical director in the volume and quality of tone as well as in the harmony produced.

Especially noticeable was the chorus work in the songs "Caroline" and the "Missouri Waltz."

It would be difficult to pick out any item of the first part for special praise, but mention must be made of the excellent rendering by A. G. Read of his number, "Carolina," in which some of his voices shewed to great advantage. Charlie Nutter took the house by storm with his humorous item "They go wild over me" and for a first-public performance must a big hit.

Oscar Daehler and Jas. Johnston added to their laurels by their combination of comic comedy.

Mr. Lorne Webster by his clever dancing made an impression on the audience which will not soon be forgotten; in fact his performance was the big surprise of the evening and he gave evidence of talent for entertainment which had never been dreamed of before.

The End Men's work was of an exceptionally high order of merit, and kept the audience in convulsions of laughter the whole time. A. H. Swain and Lorne Webster pulled over a number of local hits which tickled the palate immensely, while their partners in buffoonery were equally successful as merrymakers.

W. A. Smith, the interlocutor, gave general satisfaction to the audience and to the members of the troupe, by the smoothness and facility with which he directed the work of the circle.

Immigration Into Western Canada

Many Farmers From U. S. Take Up Land Here

Last year 36,561 persons entered Western Canada from the United States with the intention of making their home there. This was the largest number ever reported in a single year of immigration into Western Canada since 1913. In the year 1913, 20,000 persons immigrated into Western Canada and \$366,840 in effects crossed the border. In 1914 this number increased to 17,902 and the amount brought with them \$3,216,564 in cash and effects to the value of \$92,000.

The movement of settlers from the United States to Western Canada has developed almost entirely since the close of the last century. It reached its highest point in 1913, and at the outbreak of the war had increased to 139,000 persons. In 1914, 139,000 persons came into Canada from the United States, compared with 130,000 in 1913 and 120,000 a year previously. Of all the settlers entering Western Canada in 1913, 10,000 were Americans. The United States as against ten percent in 1897.

Western Canada is valuable to both countries. Western Canada has millions of acres of fertile land that are now being cultivated, and are highly productive and more prosperous. Already Canada has become a great producer of wheat, and it is to see that the most prosperous period has descended upon the United States will benefit.

Talk to His Master

A correspondent sends me a story which is a good parallel (for rather, the exact opposite of a parallel) to that of the minister who prayed in his church.

There was in Dublin an old lady who had a son who was a Jew. She sent for a Jewish minister, and started to learn Hebrew most assiduously. Her son was greatly surprised, and his friends were rarely surprised at anything she chose to do, they were so fond of her, and asked her the reason.

"It would ill become me," she replied, "to talk to my Maker, as soon I shall, to address him in any but his native language."

To Place All On Equal Basis

Uniform Administration of Military Service Act sought by Questionnaire Method

The great crisis through which the world is now passing has served to emphasize among a great many other things the axiom that responsibility is the price of liberty. Because equal responsibility is the right of all citizens of Canada, it is the duty of the Government to see to it, so far as it is able, that all are made to bear equal sacrifices. That the Dominion's War Government is not unmindful of the duty in this respect is evidenced from the fact that it has taken to ensure the equitable administration of the Military Service Act. Questionnaires are about to be addressed to all exempted men so as to permit of a clearing of the question in the case of each man as to whether he is conforming to established methods of the application of the legislation. These questionnaires must be returned promptly upon penalty of forfeiture of exemption. Exemptions papers previously granted, Exemptions and almost daily the registrars of their district of pay change of address, as non-receipt will be regarded as constituting failure to return questionnaire, properly filled in as required. The Government has decided that the uniform application of the Act shall be administered fairly, and in this determination they will have the active support of all followers of democratic ideals.

A Truck for the Farmer

FARM equipment which will effect a time and labor-saving, and therefore a money-saving, must be carefully considered by every good farmer now-a-days.

The farm wagon, which for years was the most useful of all farm equipment, is now being replaced on the best farms by a sturdy, dependable motor truck. The truck will haul any farm product—fruit, grain, vegetables, stock, fertilizer, or wood—around the farm; or to the town or city many miles distant, in half the time, and at a much lower cost.

The Ford One-Ton truck is a rapid, economical and very serviceable means of transport. One of these on your farm will save you weeks of time in a single season and will enable you to pass through a crisis of labor shortage with less difficulty.

The Ford truck is supplied as a chassis only. This permits you to select any of the many body styles especially designed for the Ford truck and already on the market. Thus you can mount the one which suits your individual requirements.

Price \$750 f.o.b. Ford, Ont.

Military Service Act

Important Announcement to All

EXEMPTED MEN and to the Public Generally

In dealing with the very large number of claims for exemption brought forward for consideration in connection with Class I under the Military Service Act, it has occurred, as was inevitable, that as a result of false statements and difficulties put in the way of investigation, some individuals have secured exemption whose proper place is in the Army.

It is not the intention of the Government to allow these men to evade permanently their obligation to bear their part in the military defence of the Country and of the ideals for which we are fighting. To do so would defeat the purpose of the Act, and cause grave injustice to men in the second class necessarily called out to fill their places.

Exemptions Granted on False Grounds

It is, therefore, proposed to scrutinize carefully all exemptions granted to date in order to separate those which have been granted on false or insufficient grounds from those that were well founded.

With this object in view the various Registrars under the Military Service Act have been instructed to issue a series of questionnaires to exempted men. These questionnaires must be filled in correctly and returned promptly under penalty of forfeiture of exemption for failure to do so.

Exempted Men Who Have Changed Address

It is therefore important in their own interest that all exempted men who have changed their address since their exemption was granted and who have not already notified the Registrar of such change should notify him at once. Under the Regulation it is the duty of exempted men to keep the Registrar advised of any change of address, and failure to receive the questionnaire by reason of neglect of this duty must be treated as equivalent to failure to return the questionnaire after receipt.

Citizens Urged to Assist

In many instances information has been furnished by members of the public which has led to the cancellation of exemptions obtained by false or misleading statements. Further co-operation of this character is invited. The Government requests it of the public to all loyalty to the Country, but to the men at the front, to make this possible in securing reinforcements on a just and legal basis. Correspondence of this character will be treated as strictly confidential and will receive the fullest investigation.

CHARLES J. DOHERTY,
Minister of Justice.

Correspondence should be directed to J. M. Carson, Esq., Registrar under the Military Service Act, Calgary, Alta.

Red Cross Society

Local Branch Makes Considerable Headway During 1917.

The Annual Report of the Red Cross Society (Alberta Branch) for 1917 shows a most gratifying improvement over that of the previous year; and it is every way a matter for great encouragement to those who have worked so faithfully and consistently for this great international cause.

But there yet remains a great majority who are not connected with the organization of the Society who do not work nor contribute

Alberta out of a population approximating the half million has contributed \$572,112.45 or considerably less than one dollar per capita.

Bassano, in comparison with other towns has done well. We have raised during 1917 \$1304.84 as against \$572.67 last year, and latter still supplies to the number of 2650 pieces have been made up against 801 the previous year.

This is an excellent improvement and the best possible proof that the organization in Bassano is becoming more perfect, and that the consciousness of nations need is beginning to dawn upon the spirit of national life which the war has called into being.

But when we consider Bassano's contribution and membership in comparison with that of one of our country districts to the north we find that we have still much to accomplish before we can hope to equal their work.

Lone Butte and district has a total membership of 110; including associates, and their contribution for the year was \$1777.09, and the branch has sent supplies to the number of 1426 pieces.

Bassano has done well but Lone Butte better. We hope that the report for 1918 will place Bassano where it has every prospect of being at the head of the list for members and work.

The annual fee is small and we are sure that a drive for members would rope in practically every person in town.

The executive of 1917 deserve great praise for the state of efficiency to which the Bassano branch has been brought and we trust that the 1918 executive will continue the good work.
